Put Yourself in Our Boots
Workplace Hazards Inspection Checklist

Company/Organization: ____________________________________________________
Address: ________________________________________________________________
City: _______________________ Province/State: _________________________ Country: __________________________________
Inspection Area: ____________________________________________________________________________________________________
Name (Optional): ___________________________________ Signature: __________________________________________________
Date of Inspection: _________________________________Date of Next Inspection:__________________________________

The Put Yourself in Our Boots safety checklist highlights hazards that could pose a risk to emergency responders, or other services that may have to attend your workplace/work site during an emergency. While our efforts are intended to protect emergency responders, the steps you take to make your workplace safer will also make it safer for anyone who may be at your work site, including employees, contractors, clients, visitors, etc.

This checklist, compiled by the John Petropoulos Memorial Fund (www.jpmf.ca), is a suggested tool for you to use at your workplace. We suggest you complete the form at least every 3 to 6 months.

GENERAL PHYSICAL CONDITIONS

Are floor surfaces clean, dry and free from clutter and debris? YES__NO__
Are carpets well secured and free from worn or frayed spots? YES__NO__
Are aisles and doorways free of objects to permit unobstructed visibility and/or exit? YES__NO__
Are exits free from obstructions on both sides of the door? YES__NO__
Are tools and sharp objects properly stored and put away each day? YES__NO__
Are chemicals, flammable materials & hazardous materials safely stored? YES__NO__
Are phone lines, electrical cords and extension cords secured? YES__NO__
Are machine guarding measures in effect? YES__NO__
Are compressed gas cylinders properly stored, weather protected and secured? YES__NO__
Are ladders and climbing devices in good condition? YES__NO__
Are ladders and climbing devices properly stored when not in use? YES__NO__
Are hand tools in good condition and properly stored when not in use? YES__NO__
Are scrap materials and garbage properly accumulated, removed in a timely manner and disposed of properly?  YES__NO__

Are stacked materials stored with the heaviest materials on the bottom?  YES__NO__

Are safety railings, guard rails and toe rails in place and functioning properly?  YES__NO__

Are tools, machines and vehicles that should be turned off shut down when not in use?  YES__NO__

**SIGNAGE**

Are exits clearly marked?  YES__NO__

Are glass doors clearly identified?  YES__NO__

When you are inside the building, are there signs to identify where you are?  YES__NO__

Are there signs showing you where to get emergency assistance, if needed?  YES__NO__

Are the hours of operation clearly posted?  YES__NO__

Are chemicals, flammable materials & hazardous materials clearly labeled?  YES__NO__

Are fire extinguishers, alarms and detectors visible and easy to locate?  YES__NO__

Are First Aid boxes/stations visible and easy to locate?  YES__NO__

Are hazard signs current and posted well ahead of the potential danger?  YES__NO__

Are access points to construction sites and/or work sites clearly marked?  YES__NO__

Are signs and guard rails/ropes in place to alert people to holes, sinkholes, culverts, sewers, drains and other trip hazards both indoors and outdoors?  YES__NO__

Are additional signs required?  YES__NO__

**LIGHTING**

Is there sufficient lighting in the area at all times of day?  YES__NO__

Are lights functioning properly?  YES__NO__

Are all building entrances and exits well lit?  YES__NO__

Are access points to construction sites and/or work sites well lit?  YES__NO__

Are the main light control switches accessible and easy to locate?  YES__NO__

**EMERGENCY SYSTEMS**

Is your staff familiar with emergency procedures and reporting of incidents?  YES__NO__

Are there designated First Aid qualified people working on site?  YES__NO__
If it’s a 24/7 operation, is there someone there capable of First Aid at all times? YES__NO__

Are there programs, incentives and/or allowances for staff to be trained in First Aid and recertified as required? YES__NO__

Is there a list of First Aid qualified staff posted somewhere? YES__NO__

Are drills ever performed to prepare workers for potential emergency situations? YES__NO__

Does every employee know where First Aid kits are and are they comfortable using them? YES__NO__

Are fire extinguishers, fire alarms, smoke detectors, carbon monoxide detectors, security alarm systems and First Aid boxes/stations inspected monthly? YES__NO__

Are inspection tags attached to or near fire extinguishers, alarms and detectors? YES__NO__

Are First Aid boxes/stations up to date? YES__NO__

Is the sprinkler system inspected and maintained on a regular basis? YES__NO__

Are exit route maps visible and easy to locate in the event of an emergency evacuation? YES__NO__

Are ventilation and temperature control systems regularly inspected and maintained? YES__NO__

Is emergency contact info up to date, visible and easy to locate for dealing with security alarms, sprinkler systems, gas lines, water issues, electricity, site access and corporate issues? YES__NO__

Is personal protective equipment required for visitors to your workplace? YES__NO__

Is personal protective equipment accessible and easy to locate? YES__NO__

**WHMIS/HCS and MSDS**
